- Allowing admission to buildings

Fees and Charges made under Section 608 of the Act are classified according to the following pricing basis

Full Cost Recovery (F)	Council recovers all direct and indirect costs of the service (including depreciation of assets employed).
Partial Cost Recover (P)	Council recovers less than the Full Cost. The reasons for this may include community service obligations, priorities legislative limits.
Statutory Requirements (S)	Price of the service is determined by Legislation.
Market Pricing (M)	The price of the service is determined by examining alternative prices of surrounding service providers.
Zero Cost (Z)	Some services may be provided free of charge and the whole cost determined as a community service obligation.
Rate of Return (R)	This would include Full Cost Recovery as defined above in addition to a profit margin to factor in a return to Council for assets employed Council's policy for determining fees to be charged is that all Council fees and charges not subject to statutory control are to be reviewed on an annual basis, prior to finalisation of the annual operating budget.

In applying the above pricing basis to fees made under Section 608 of the Act, Council considers the following factors as outlined in Section 610D of the Act:

- The cost to the Council of providing the service – the Full Cost Recovery method is used as a benchmark in this instance. This includes any debt and servicing costs, depreciation and maintenance associated with the provision of the service.
- The price suggested for that service by a relevant industry body or in a schedule of charges published, from time to time by the Division of Local Government.
- The importance of the service to the community – this is considered in determining any potential community service obligations or community benefit particularly under a Partial Cost Recovery or Zero Cost method.
- Any Factors specified in the Local Government (General) Regulation 2005 or other applicable legislation.
- Other Factors not specifically mentioned under Section 610D of the Act that may also be considered include:
  - If services are being supplied on a commercial basis as part of a defined Council business
  - The capacity of the user to pay
  - Market prices
